

CSM MACHINERY

OAKLEY
INDUSTRIAL MACHINERY

Unloading Device

Device to collect and unload heating elements at the exit of the rolling mill and to convey them to a container that will have to be placed at the foot of the machine.

Technical characteristics

Length heating element	mm (inch) to be defined
Pneumatic power supply	6 Ate
Power supply	V to be defined
Height from the ground resistance axis	850-950 mm (33-37")

AVAILABLE VERSIONS

Model	Length of heating elements
Mod. 140/20.100000	up to 1.250 mm (49.2")
Mod. 140/20.150000	up to 2.000 mm (78.7")
Mod. 140/20.200000	up to 2.500 mm (98.4")
Mod. 140/20.250000	up to 3.000 mm (118.1")
Mod. 140/20.300000	up to 3.600 mm (141.7")
Mod. 140/20.400000	up to 5.000 mm (196.8")
Mod. 140/20.500000	up to 6.000 mm (236.2")
Mod. 140/20.600000	up to 7.000 mm (275.6")
